No. 1959—Eighth Year. BUENOS AYRES, FRIDAY, AUGUST 21, 1868. Circulation 3000

MAUA BANK,
101-103 CALLE CANGALLO

The offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

THE ROMAN CATHOLIC GERMAN SCHOOL.

For several years there exists in this City, at No. 118, CALLE LIBERTAD, a Catholic German School, which, through the zeal and proficiency of the Masters, has given the most satisfactory results.

The Pupils are charged only a small sum Monthly, and, according to the Rules, the Poor are Educated Free.

The School receives no aid whatever from the Government or the Municipality, being supported only by a number of Resident Catholic Germans. Its financial position, therefore, is not such as could be desired, and, in order to improve it, a RAFFLE has been got up, the Prizes being given by various well-wishers. We hope that our Friends—Lady Friends in particular—and all supporters of Education will not withhold their aid. For this philanthropic purpose, several Articles of Handiwork have already been presented; and a Committee has been formed authorised to receive Donations, as well as to Sell the Tickets. They will duly notify the days for Exhibiting the Prizes, and for the Raffle.

The Committee consists of:—Señoras Rosario Gallino de Diekelmann, 166, Salta; Josefina Klappenbach de Scharff, Cordoba, between Cerrito and Libertad; Mercedes Ortiz de Schaty, 188, San Martin; Maria Dönnewald, 197, Paraguay; and Juna Brüggemann, 18, Libertad.

Tickets—$20 m/c. each—can also be Purchased of:—Señores Wolff, Wissmer, and Co., 30, Peru; Alberto Larsch, 103, Florida; Bdo. Buck, 10, Maypu; The Editor of "The Deutsche Zeitung," 105, Piedad; also at The Standard Office. 40,1m,a9

MINERVA COLLEGE

MADAME FARNESI

Has the honor of informing the Parents of her Pupils that her expected Governesses having arrived from France and England, her Establishment is now complete.

She has spared no expense in procuring the first talent for the higher Branches of Education. She will also introduce the celebrated Kindergarten System for Young Children, by which they are Taught their Letters, Grammar, Geography, Writing and Drawing by means of Games, having had everything required for this purpose sent out from England.

EXTRA CLASSES have now been Opened, which can be joined separately, for Singing, Drawing, French, German, and Italian.

Madame FARNESI, in thanking her Friends for their past patronage, hopes by her care and attention still further to deserve their approbation

PATENT ELASTIC SHEEP SHEARS,
(Patented by Royal Letters Patent, December 11, 1866, No. 3265.)

The Patent Elastic Sheep Shears are Manufactured from the Best Cast Steel, and by New and Special Machinery, which secures the important advantage of working the steel at a lower heat, and dispensing with the uncertain process of welding. The blades being hammered and tempered in a superior manner, are warranted to carry an edge equal to the best made razors. The bows are double, and firmly riveted, thereby combining the greatest strength with the greatest elasticity.

☞ The Patent Elastic All-Cast-Steel Sheep Shears are lighter, stronger, more compact, easy in the grip, and will carry a superior edge to any Shears that have been invented.

THE NEW GOVERNOR.

There are no less than ten candidates in the field for the post of Governor. If the post was a sinecure there could be hardly more aspirants. One of our colleagues treats us to the names of the candidates. They are each and all good men and true; but the right man in the right place is, beyond all question, Don Emilio Castro.

Few Argentines have figured more in public life during the last few years than Sr. Castro. We find him occupying positions of the very highest trust and responsibility, ever discharging with credit to himself and satisfaction to the public the trusts reposed in him; and even now, when, by the sudden current of events, his name crops up as the most likely candidate, he steps from the chair of President of the Senate, and from the private office of the Western Railway, to assume power in the Government House.

Sr. Castro possesses one great advantage over all the other candidates—namely, his early training. Educated in Scotland, he acquired all those characteristics which ennoble and aggrandise the 'canny Scot.' He speaks English fluently, and is well read up in all the English literature of the day. Since he took charge of the affairs of the Western Railway, there has been a new impulse given to the works; the small blacksmith shops have been converted into immense arsenals of industry. What are Sr. Castro's politics we do not profess to know; but in all the varied transactions of life he has stood well, and in his lengthened public life few men have passed so unscathed, and so universally respected.

Without taking in the least, therefore, from the high qualities of the other candidates, we feel we can say that the people of Buenos Ayres could not name a sounder and more practical business man for the Government House than Sr. Castro, who, if report be true, springs from an old Scotch family which still exists in Ayrshire, named Caxton.

It is a remarkable circumstance that the only foreigner who ever ruled as Governor of Buenos Ayres, since the declaration of independence, was an Irishman. Few of our readers may be acquainted with this fact; yet the history of Buenos Ayres attests it. Admiral Brown, during the ups and downs of civil strife, was named Governor, and held office for a short period, giving the greatest satisfaction to his adopted fellow-citizens. During his short administration he was the terror of the bands of robbers and assassins that then afflicted the camp, and, when he retired from office, he received the thanks and good wishes of both natives and foreigners.

There is a great science in, whatever one does, doing it well. All the master minds that occupy high positions in human affairs owe their elevation to this great secret of success. Governor Alsina retires from office, having gained for himself an immense reputation. Whatever he took in hands he did. The splendid waterworks, which are now fast approaching completion, near the Recoleta, form the noblest monument any man in this place can point to. Will our readers credit it, that, in all human probability, we shall have the waters flowing through our streets, and fire-cocks at every street corner, before the Municipality or Legislature will have passed the bill or the project authorising their construction?

The somniferous municipal men are so completely behind the age we live in, that the sessions of that board are but a mere sham. The citizens are tired out waiting to see what these gentlemen would do. Now we trust them no longer, and we hope that, if Sr. Castro be elected to the post of Governor, he will tread in the footsteps of his go-a-head predecessor.

The immense good which an active and energetic Governor can accomplish is now patent. Governor Alsina fixed the paper dollar, and gave us a water supply. We invite Sr. Castro to the Government House in the hope that he will also put his shoulder to the wheel, and give us a decent pavement and a proper sewerage. These two most necessary wants should, under no circumstances, be overlooked, and the farce of applying to the Municipality about such matters be abolished for ever. Leave to the Municipal Board the oil lamp lighting of the back streets, and the management of the serenos and shoeblacks, and, possibly, they may at last begin to give satisfaction; but their jurisdiction should extend no further.

We hail, therefore, our *quasi* fellow-countryman, Don Emilio Castro, the new Governor-elect, as the fit and proper person to succeed Governor Alsina; and hope, ere he retires from office, that the streets of Buenos Ayres will outrival the pavements of Glasgow and the promenades of Edinburgh.

THE RETIRO STEAM-WASHING ESTABLISHMENT.

People going to Palermo, by the lower Retiro road, must have remarked a building, nearly fronting the railway station, built at the corner of a road that comes down from the barranca, past the Socorro Church. It is not many days ago since within its walls the busy pulsations of a steam-engine have for the first time broken the silence of that otherwise tranquil neighborhood, and made a running accompaniment to the occasional whistle of the locomotives on the Northern Railway. An establishment of great and general utility has been started there, under the enterprising initiative of Mr. Marechal, and the able management of Mr. Chassaing, the engineer under whose sole direction all the works of the establishment have been executed, and who now successfully superintends its operations.

A steam-engine of fifteen horse-power, pumps the water from the river by a hose of 1200 feet in length, into a large reservoir capable of holding 5,000 gallons of water, which, by a second pump, supplies to the establishment all the water used in the washing-room. In the latter is placed, in the middle a large drum, containing inside a hollow well, where the larger clothes, such as covers, sheets, and tablecloths, are thrown in, and by the simple friction caused by the revolution in hot water, where soap has been diluted, their cleansing is effected in a thorough manner, in about twenty minutes. In another part of the room two shaker mills are placed for smaller articles, each of which is capable of holding twelve dozen of articles; twenty minutes are sufficient here also, and the clothes there are thrown into large tanks of cold, tepid, or warm water, according to the various kinds, and wrinsed.

They are then placed in a hydraulic-wringer, which consists of a round wire bucket, against the sides of which the washed clothes are ranged, leaving a hollow space in the middle. The engine sends the basket spinning round with a tremendous velocity, 1,000 revolutions in a minute, and the pressure caused by the centrifugal force wrings all the water out of the clothes. They are then either placed in the sun to dry, or in the drying-room.

The end of a large room, covered with tables for ironing, and containing also several mangles, is partitioned off by a wooden wall, with openings to allow two tiers of large racks to be wheeled in and out of an inner room, which is kept at high temperature by means of numerous steam-pipes running in parallel lines on the floor, and here the clothes are dried in a short time, and, after being ironed, or put through the mangle, are ready for delivery.

Two thousand pieces can be easily washed, ironed, and ready for delivery in the day; of course, at a cost much more moderate than the washing by hand, and with the further enormous advantage, that as the clothes are not subjected to any scrubbing or beating process, they undergo less detriment although more thoroughly cleansed than by the hand-washing system.

To hotel keepers and owners of steamers the new washing establishment will be an invaluable boon, and we doubt not that as soon as the public is made aware of its existence and the great benefits it confers, it will be readily appreciated, and its enterprising proprietor will reap the full advantage of having endowed this city with an establishment that marks a decided improvement, and is a credit to this great city of Buenos Aires.

THE LATE ESTEBAN HENRIQUE.

Buenos Ayres, Aug. 4, 1868.

To Major Munro, H.M.'s Consul.

Sir—

We, the undersigned British subjects and natives of Gibraltar resident in this city, take the liberty of addressing these lines to you, hoping that the purpose of this letter will meet your kind consideration.

We understand that last month a most cruel murder was committed on the person of Esteban Henrique, a cigar shopkeeper in Calle Colon, Montevideo, by a policeman. It appears that there was a row in a coffee-house near the deceased's shop, and, as he happened to be passing by at the time, stopped to look in when the policeman was arresting one of the rioters. The deceased told the policeman that he should take the other instead, when the policeman, having his sword drawn, murdered the unfortunate Henrique in cold blood. We, as British subjects and countrymen of the deceased, call on the British Consul to have the murderer punished according to the laws of the Republic. The deceased left his parents and wife to deplore his sad end.

Montevideo, Aug. 18, 1868.

The undersigned H. B. M. acting Consul General at Montevideo, hereby acknowledges the receipt of the memorial addressed to him by forty-five subjects of H. B. Majesty, natives of Gibralter, respecting the death inflicted on the late Estevan Enrique, by a policeman of this city, and upon which the undersigned has taken the necessary action.

J. ST. JOHN MUNRO.

Mr. José J. Rodriguez, and Memorialists, Buenos Ayres.

EDITOR'S TABLE.

The City of Brussels arrived in Montevideo late on Wednesday evening, with the expected remittance of £250,000 for the Argentine Government. Her mails have been anticipated by the Halley, which left Liverpool on the same day (18th July), and arrived in the River Plate thirty-six hours earlier. Captain Haddock beat the Halley last time; but this time fortune has been on the side of the Liverpool line.

We have mails from Panama to the 25th June. A new French Pacific Steamboat Co. is to be started from St. Nazaire, booking passengers right through to Valparaiso. There is talk of the Australian Co. transferring its station to San Francisco, as soon as the Pacific Railroad is completed. News from Hayti reports the civil war still raging and the capital besieged; one day General Lynch wins, the next day Salnave.

A gentleman named Fridolin Wild, formerly of Buenos Ayres, sends us a paper from Texas with an account of a dreadful hailstorm; the town of San Antonio was left like a city after a bombardment, the hail having riddled all the azotea roofs like cannon-shot; some of the hailstones weighed as much as 5lbs.

We give to-day a biography of the well known Samuel Lover, whose songs—"Shells of Ocean," "Native Music," &c., have delighted many an English fireside in every part of the world.

Mr. Brill has favored us with 'Harper's Magazine and Weekly,' and also 'Godey's Lady's Book,' which we shall review to-morrow. In 'Harper's Weekly' there is a bird's-eye view of Humaita, taken by Messrs. Allen in their balloon at the Allied headquarters.

Mr. Reichert gives his concert at the Coliseum to-morrow evening. We refer our readers to the programme, which is *recherché* and interesting.

The *Nacion* finds fault with Congress that in 4 months' sessions it has not originated a single law, good or bad: if our legislators would only do something for the port of B. Ayres, we shouldn't care how many laws they made, to please our colleague.

The opera of Roberto il Diavolo was very creditably given on Wednesday evening; the house was well attended, and some of the arias and cavatinas were greeted with rounds of applause.

We are glad to learn that Mr. Marco-artu has met with every co-operation from the estancieros in his projected railway at Salto; they give the land gratis, with an area on each side of the line.

Yesterday there was a great rush to our office to see the Paraguayan canoe, but it blew so very hard all the morning, that Mr. McLean was unable to get it ashore at the appointed hour. It reached our office at 4.15 and is set up in its proper place in our Hoe. Patio. It is accompanied by one paddle ten feet long, two middle sized and three small ones—besides two blocks, use unknown, and a curious instrument for bailing out water. There is also a very fine tempered sword, a cavalry kepi and bugle belonging to a Paraguayan bugler defunct on the Chaco.

We regret to hear that it is probable our late and much esteemed Chargé d'Affaires, Gerard Gould, Esq., will leave in the packet. Mr. Gould, during his stay amongst us, has won the esteem and regard of all who had the pleasure of his acquaintance; he has the stuff in him for an ambassador, and we hope ere long to see him occupy this high post.

The Western Railway telegraph, which is at present a private concern and exclusively owned by Government, will shortly be thrown open to the public, and possibly rented to a company or contractor. This change will take effect when the wires are completed to Rosario.

Thanks to the efforts of our esteemed friend Mr. John Hannah, the tax on tobacco for sheepfarming purposes has been abolished by Congress. This, at least, is a move in the right direction, as it was really monstrous to think that sheepfarmers should pay a heavy duty on tobacco, which they merely required to cure the scab in their flocks

We have received the two first numbers of a new daily paper published in Rosario, under the name of the *Federalista*. We take pleasure in giving a cordial greeting to our infant colleague, who makes its first appearance under most promising auspices, and falls at once into the ranks of the sincere toilers for the progress and peace of this favored land, and we are happy to express our best wishes that its future career may be successful for its owners and of utility to the general interests of the country.

The *Federalista*, of Rosario, publishes the statistics of the Arteaga Gas Company in Rosario, which is expected shortly to begin operations as the extensive buildings where its works are to be carried on are in a very forward state.

A gentleman who visited Humaita the day after its occupation by the allies saw in the ditch where Osorio made his brilliant but unsuccessful attack on the 16th of last month, several scaling ladders, and from the numerous footprints on the earthen parapet that formed the only bulwark of Humaita on the land side it was evident to him that the Brazilians had surmounted it and were actually inside Humaita, when the Marquis of Caxias thought proper to send peremptory orders to Osorio to retreat, a retreat which cost the Brazilians such incalculable losses.

Our distinguished friend Mr. Gottschalk gave a concert a few days ago in the San Felipe Theatre in Montevideo, which was brilliantly attended. Some valuable presents were offered to him on this occasion by his admiring friends in the sister city.

To-night the new opera 'Tutti in Maschera' will be produced at the Colon Theatre. The music is by a maestro Pedrotti, a name as yet unknown to the musical world this side the Atlantic. The plot is made out of a cross fire of intrigues and love-making between a Turkish empresario who goes to Venice to engage a company, and falls in love with the primadonna who had another lover; the latter engages himself as tenor to be able to accompany her, but the wife of the director of music endeavours to wean his affections. All this gives rise to numerous ludicrous situations, which have their climax in a masked ball, where everybody mistakes everybody else and is taken in, ending in a general reconciliation and a happy wedding.

The damages committed by the late pampero squall in the Plaza Constitucion are gradually being repaired. As high as $60 a day has been paid to peons employed in removing debris, collecting wood, piling up timber, &c. The barracas of Mr. Roth, as well as that of Mr. Arias, are also undergoing active repairs.

Among the passengers that left per Savoie yesterday for Marseilles were Count D'Amereau, the Secretary of the French Legation, and his lady, accompanied by Miss Blunt, who has been on a visit to her brother, one of the Secretaries of the British Legation here.

The arrival of produce, and wool particularly, in the South Plaza is unparalleled for this time of the year. The day before yesterday we reported the sale of 1,200 ar. from Azul and 500 from Langueyu; yesterday we noted a sale of 1,500 from Arroyo Grande, about 90 leagues from town. Troops of carts offering to take freight to Tandil, Azul, Tapalque, Saladillo, and other distant points, are now abundant, whilst at this time last year not one could be obtained. This is owing in a great measure to the mild winter we have had this year.

The race meeting at Jeppener on the 8th of next month, connected as it is with the revival, on a solid footing, of English amateur racing in Buenos Ayres, promises to be a brilliant success. The provisional committee are sparing no efforts to render the access to the race ground easy; and the arrangement will be such as to enable visitors to go on the 8th, which is a feast day, and come back the same evening to town, having all their creature comforts properly attended to, all at a reasonable and moderate charge. We can also anticipate that many of our belles will grace the Randall Racecourse with their presence on the day of the Races.

SR. RIESTRA'S LETTER TO PRES. MITRE.

[*Communicated*].

It occasionally becomes the duty of a public organ in the expression of public feeling, gravely to censure the acts or words of parties who stand high in general esteem and confidence. There are cases in which the fulfilment of this duty is particularly painful, when the acts or written words of such a party are a gratuitous offence to an important section of the community, deeply interested in the well-being of the country.

Don Norberto Riestra has committed an offence against good taste in his letter to President Mitre. Sr. Riestra from his long connexion with British commercial men and his participation in its commerce, should of all Argentines have known best, that the Loan Market or Stock Exchange transactions are not consistent with the business of trading merchants. He knows well that the capital of commercial houses is required for the conduct of their legitimate business, and that it can, most advantageously both for the merchants and the interests of this country, be employed in the development of its commerce. While Sr. Riestra from this point of view has committed an offence against good taste, with inconceivable want of tact alluding to the absence of River Plate merchants' names from the list of the Argentine Loan, he has more than justified one of his assumptions, that "this abstinence has arisen from the fear of the imaginary risk," for he has in a subsequent passage of his letter, pointed out, to the President of the Republic, the impunity for the practice of bad faith.

We can assure Sr. Riestra and President Mitre that had the subscribers to the Loan had the smallest conception of the existence of sentiments which dictated the passage of Sr. Riestra's letter, the Loan never would have been taken up.

The Loan was scarcely subscribed for in its entirety, when the Argentine Ambassador who negotiated it indicates to the President of the Republic, that the Republic can, if it so desires, with perfect impunity repudiate its obligation, "That the lenders are entirely at the mercy of our honor and good faith!" This is a public avowal, as startling in itself as it is impolitic.

It is inconceivable that the President of the Republic should have permitted the publication of expressions indicating such conceptions, which in an illadvised hour escaped so ungraciously from the pen of the Argentine Ambassador in London.

X. X.

THE PETTICOAT CAMPAIGN.

(From the *Daily Telegraph*).

There are few of the quiet-looking, ordinary, smooth-bounding vocables in our common speech which have a more belligerent derivation than the word "rivals. It did not come into the dictionaries till many a bloody exposition of its meaning had been afforded by the history of mankind. The term really signifies "dwellers on the banks of the same river;" and from time immemorial such neighbours have been savage foes. Men have been fighters, "rivals" for rivers and river-banks, ever since our common progenitors left the peaceful banks of the nameless river, which, after watering Paradise, parted into four great branches—Pison and Gihon, Hiddekel and Euphrates, the streams that bordered Paradise. Nor has civilization yet passed beyond the state of things which affords frequent illustrations of the old etymology. Rivers and river-banks are the secret of the horrible war which is devastating the beautiful valleys of Paraguay. The splendid channel of that name and the sister-stream of the Parana bound the province which Lopez rules on three sides, and run up into Matto Grosso and Goyaz northward; while, southward they unite, and flow by a magnificent waterway into the South Atlantic at Buenos Ayres. These glorious rivers—the gift of Heaven to the lovely land—are being stained with blood by a frightful conflict, because difficulties have arisen respecting the ownership of them, and also because Lopez wanted to annex the lands around the upper reaches of the streams. The combatants are carrying on their prolonged and bitter struggle in a place where "all, save the spirit of a man, is divine." There is no finer country in the world, and no richer soil. The green savannahs of Paraguay are dotted over with stately palm-trees, and covered with grass and flowers. Cotton and the mulberry grow wild along the edges of the forests, which produce the most varied timber and dye-woods. Anything may be grown on the hillsides or upon the lowlands. The cinchona is found, and the maté-tree, which supplies all the South Americans with a kind of tea that, while it is still boiling hot, they suck through silver tubes. The cocoa-palm is common along the rivers, which run through tangled foliage and wonderful blossoms, more like the display of a vast conservatory than anything which we understand by wild nature. The giant red and blue lillies rock upon the ripples of the streams; a feathered creation of resplendent plumage—parroquets, toucans, hummingbirds—fly and feed along the flow; and the splendid vegetation is yet further beautified, as if with living blossoms, by crowds of marvellous butterflies, literally glittering like moving flowers, with crimson, turquoise, and saffron wings. It is a country so opulent in the gifts of Providence, and so lovely, as to make our great traveller and naturalist, Mr. Bates, declare his belief that the crowning, the consummate race of mankind will some day live along these shining equatorial rivers. The middle belt of South America is too beautiful, he thought, to belong always to savages, or to scarcely less savage half-breeds and semi-Spaniards, like those who are deluging the bright streams with blood about Humaita, Timbo, Villa Rica, and Lambaré.

But the last event reported from that wonderful country is the worst of all. Lopez, the resolute Dictator of Paraguay, couched like a jaguar in his forts at the bifurcations of the great rivers, has sworn to spill the last drop of Paraguayan blood into them before the Brazilian and Argentine flag shall come and go without his leave. Beginning to be short of men for his garrisons and army, he has armed, it is said, a whole division of the women of the province, and has given the command to the Hippolyta who shares his fortunes. We read in the Brazilian journals of such names as Brigadier-General Eliza Lynch, Colonel Margaret Pereira, and Mrs. Captain Herrero; and relays of girls and women eager to enlist are said to be pouring in to the head-quarters of the female warriors.

Heretofore the women have helped in the fierce defence; the trenches around Humaitá were mainly dug by them, female couriers and aides-de-camp have scoured the plains with despatches and orders, and the steamers and boats at the port of Asuncion have been unloaded by feminine toil. They have had, indeed a hard time of it the Paraguay maidens and matrons, during this cruel war—tilling the fields, sowing and harvesting the crops, weaving clothes for the soldiers out of fibre and cotton, maintaining the hospitals, supplying the army. Now it is declared, Lopez has summoned them to come to the front with musket and dagger, and they are drilling and arming in thousands.

The Brazilian journals are, of course indignant at such an outrage on civilisation; and, doubtless, they cannot say anything too severe of so bad an example. But it is probable enough, that in thus enlisting a petticoat *corps d'armee* the Dictator only avails himself of a fierce and voluntary spirit.

The Paraguay damsel is no soft small-handed virgin; and, she has caught a mad spirit of defiance from the angry time. The half-bred, or half-Spanish, nature of the ordinary "Paraguay-ana" can fight, as she can love, desperately; and the Brazilians do well in objecting to such unheard-of warfare, for they will have to fight or run away, if they really come across the ranks of these Amazons of Lopez.

If women once unsex themselves, the transformation is tremendous; and few are more cruel than the "gentle," when their blood is once stirred with the passion of rage. But the new soldiers of Lopez, even in time of peace are, as we have said, no soft-handed sex; it is a country where the women labour as much as the men; and this female contingent, if it be sternly and seriously enlisted, will no more be a thing to meet with derision on the part of the Allies than a brigade of she-panthers or pumas.

The Brazilians, in their turn, are not likely to be troubled with very many scruples of gallantry in dealing with their novel enemies. They and the Argentines are savagely in earnest too, for Lopez holds his own, in spite of fierce onslaughts and flaming despatches of victory; and the passage of the forts at Humaita has really done little for the allies. One could wish that the Dictator of Paraguay, by having recourse to such a shocking expedient as that of enlisting women, had a stratagem in his mind like the one which Cambyses employed in Egypt. When that monarch marched against Pelusium, he gathered all the cats, it is said, which the district afforded, and marshalled them in a drove

before his host. The Egyptians who were defending the gates of the town did not dare to launch their javeline and arrows at the assaulting column, for fear they should wound one of those sacred animals; and thus—so at least runs the legend—Cambyses triumphantly entered Pelusium under the protection of a detachment of cats. We wish we could believe that Lopez hsped to put a stop to hostilities by placing his female rank-and-file in the front line. But, if he has enrolled them at all, he has done it with a bloody purpose—he seeks to make these women savage guerrilleras, waylayers of the sick and wounded, ambuscading tigresses who will kill, if they get a chance, with a man's muscle, a woman's hate. And if it ever comes to fighting, scant quarter will these soldadas in turn receive from the Brazilian troops: the blood upon both sides is maddened with fury, and sex itself "is not within the leaf of pity writ." Thus, then, to all the other horrors which have so long cursed that lovely land may soon be added a war of one sex against the other. Natural piety and pity may be overcome, the sacred weakness of women blasphemed and derided by frightful exigencies of warfare. That frightful transformation will take place, not in Dahomey, where the Amazon troops are a fit pendant to the "bloody custom," but in a country which worships the Mother of our Lord, and receives the Evangel of Peace and Civilization. Truly war is fiendish, when it can turn women into men, and men into devils.

ANOTHER ATLANTIC CABLE.

CONCESSION TO MESSRS. MEDLICOTT AND RUMBALL.

The new concession of a cable from Oporto to the United States, touching at the Azores, is highly spoken of in the Portuguese papers: the names of the concessionaires are well known in the River Plate. Mr. Medlicott of Lisbon does a large wine trade with our city, and Mr, Rumball [who is son-in-law to the former] was the engineer of our Southern Railway. We take the following from the "Jornal de Commercio" of Lisbon, July 14th.

"At present, while we are laboring to extend our wine and fruit trade with England and the United States, we have every reason to hope for great results from the concession by the Portuguese Government to Messrs. Medlicott and Rumball, for a cable between England, Oporto, and the United States, calling at the Azores It will certainly bring great advantages to the Azores, especially as a new station for vessels to call for orders.

"The concessionaires are favorably known to us: Mr. Medlicott has been a merchant here for over half a century; Mr. Thos. Rumball has already done great services to the country, having been the first engineer, in 1845, who made the surveys of our Northern and Eastern Railways. Only a few days ago the King received Mr. Rumball with the utmost distinction, in recognition of his services to the country.

"It is likely the Deputies of our parliament will unanimously hail the present project, which is calculated to enhance our commercial importance, and this is vastly better than politics; for, the efforts of all patriotic statesmen should be to endow Portugal with enterprises like the one we treat of.

"The enterprise will, moreover, cost nothing to the country. Messrs. Medlicott and Rumball ask for no money, but even oblige themselves to pay a percentage on telegrams. The capital of the Co. is a million sterling, and Mr. Rumball has presented a map with soundings taken by the British Admiralty.

"In a word, this concession will be an immense gain to Portugal, without causing us any outlay, and if even another company should come to ask the concession we should certainly give the preference to Medlicott and Rumball. The present session of our Cortes will be memorable for so splendid an enterprise."

FURTHER EUROPEAN NEWS.

Trieste, 14th July.

Last night a Chioggia at mob assembled at a coffee-house, assailed the police with revolvers, killing one and wounding two others: the ringleaders were seized.

Paris, 14th.

The *Patrie* contradicts the rumor of the Emperor's journey to Germany and Algiers. Prince Napoleon did not halt at Athens, but proceeded up the Adriatic.

Paris, 13th July.

Emperor's dinner to his Generals at Fontainbleau. Negotiations on foot for a conference between the Emperors of France and Russia, and King of Prussia. Austrian and English fleets to meet next month at Trieste. The people of Madrid, Barcelona, and Andalusia refused to join the revolution; the Government took strenuous measures and crushed it in time. Accident at Amiens races, stand-house fell, seven persons killed or injured.

Mexico, June 10.

The rebels have 6,000 men under arms, and Escobedo has been sent against them, with his headquarters at San Luis Potosi. The rebel headquarters are at Jalapa, and hitherto the skirmishes have been in their favor. Another revolution at Zacatlan proclaims Diaz President of Mexico. In Puebla the authorities of Juarez have been expelled, the inhabitants declaring for Mendez.

Morocco, July.

Famine still carries off thousands; corn is worth £5 a quintal. The Emperor of Morocco has thrown open ten of his warehouses, and given £85,000 among the poor. The foreign Consuls also distribute relief, and the Jewish residents are aided by their countrymen in Europe. The highways are full of corpses, one-fourth of the population having perished since Christmas. In Tunis the sufferings have been dreadful, between cholera, locusts, and famine.

THE LATE SAMUEL LOVER.

Samuel Lover, was born in the Irish metropolis in 1798. The son of a member of the Stock Exchange of Dublin, he first won his way to fame as an artist. His early success in painting was sufficiently marked to secure his election, in 1828, as an academician of the Royal Hibernian Society of Arts, of which he subsequently became secretary. Commencing business as a miniature painter in Dublin, he soon attracted to his studio the chief members of the Irish aristocracy. The late Marquis Wellesley, the Lord Lieutenant of Ireland, the duke of Lienster, the late Lord Cloncurry, and Lord Brougham, were among the first who sat to him for their portraits, and the example set by those noblemen soon established his reputation and drew to him a crowd of sitters. His roving toste, however, led him gradually to abandon art for literature. Even whilst engaged as a painter he had found leisure to contribute to a periodical of the day his series of "Legends and Tales Illustrative of Irish Character," the merits of which soon procured him introductions to the best society of the Irish metropolis. Removing to London about the year 1837, he soon found profitable employment for both his pen and his pencil. He now completed his "Irish Sketches," which he published in two volumes, and at the same time commenced a series of contributions to magazine literature, amongst which we ought especially to mention his "Handy Andy," which first appeared in the pages of *Bentley's Miscellany*. About this time also began to appear his series of characteristic songs, embracing, amongst other popular favourites, "Molly Carew," "Rory O'More," "Molly Bawn," "The Four-Leaved Shamrock," "The May Dew," &c., &., which he subsequently published in a collective shape, as well as his prose tales, which found a rapid sale. Mr. Lover also became the author of several operas founded on his own works, all of which soon became extensively popular. Amongst the best known are, "Rory O'More," "The Happy Man," and "The white Horse of the Peppers." About the same time he published a volume of ballad poetry, and finding that his strength was beginning to suffer through his literary industry, prepared an entertainment containing some graphic sketches of Irish wit and humour, which he entitled, "Irish Evenings," and in which he illustrated life in the sister island with songs and music of his own composition. This entertainment became almost as popular in London, and subsequently in the provinces, as that of Albert Smith. The reputation which he thus acquired induced him to extend his travels and pay a visit to the United States, whence he returned to England in 1848, and then proceded to illustrate his transatlantic experiences in a second entertainment, which confirmed the favourable verdict already passed by the public on his previous efforts in this style. Samuel Lover was still a frequent contributor to periodical literature. He was for the last few years in the receipt of a well-earned pension from her Majesty's Government.

We extract the following from the *London Review*—He used to miss the signs, from what he heard, even of the poetic spirit which was once rife amongst the peasantry. His recollections went back to the period of the St. Omer Priest, when Maynooth was not heard of, and when Dublin was a city of some social as well as national consequence. He could remember the time when Buck Whally throw open for three weeks his house in College-green, to any ladies or gentlemen who chose to walk in for luncheon, dinner or supper. Buck Whally lived magnificently in Paris, and described himself as an Irish gentleman who had come to the continent "to retrench." Absenteeism was then comparitively little known, except in the fashion to which Buck Whally was reduced. Mr. Lover had numberless stories and anecdotes of those days; of the duels fought in the Park, of the Hell-fire Club, of the wonderful elections at which the attorneys used to regularly charge for "going out" in the bill of expenses. He used to describe with great humor and gusto the private theatricals at Kilkenny, where Miss O'Neill, the famous actress, first met her husband. He had a large stock of reminiscences connected with the famous county of Galway, its stone walls, the 'Blazers,' the heiresses with fortunes in Chancery, and the extent of cousinship, which rendered the district almost patriarchal in some respects. We doubt if there is any Irishman now living who shared Mr. Lover's knowledge of those old relics of the past or his power of putting them before a listener. Therefore is is we regret that he did not leave a record of those memories. What he has done, however, will not be soon be forgotten by those who take an interest in the poetry of Ireland.

ON CHANGE.

August 20, 1868.

Ounces	400
Sovereigns	122½
Patacons	25
National Bonds	52

This was another exciting day on 'Change. Bonds opened at 51⅜, and closed at 52. In the liquidation-room, however, they still improved, and sales were made at 52¼. The sales for cash amounted to 38,200. Some few parties who had invested at 43 and 44 realised to-day, netting very handsome profits. These sales, however, had no effect on the market, which is extremely buoyant. For Saturday 111,000, at 52; for August 30th, 147,000, at 52⅛, and for September 30th, 39,000, at 52¼.

The arrival in Montevideo of the much looked for City of Brussels, with the balance of the loan, £250,000 sterling, as a matter of course, spread sunshine amongst the bulls, and every one to-day spoke of the great ease of the money market and the plethora of gold.

The Provincial Bank to-day discounted over fifteen millions, and money has at last become abundant, even amongst the almaceneros; but experienced parties begin to feel nervous about the Bolsa. The gains in Bonds have been enormous, although every broker on 'Change insists that he has made money, some parties must lose, and lose heavily; one broker alone has to receive in this and the ensuing month over 800,000 Bonds, purchased at prices varying from 43½ to 47. Even outsiders are now heavily in the speculation, and some hotel-keepers are represented as having close on a million of Bonds bought at low prices. It is difficult to say how far the market will stand such immense losses and gains. The 'vencimientos' for this month will probably touch the enormous sum of fifteen millions, and many apprehend that there will be a collapse at the end of the month.

It was said on 'Change to-day that a measure has been brought before Congress to authorise the payment of the coupons in London, and that some foreign firms had already received heavy orders to invest.

The total Bond sales of the day amount to 444,200.

In Gas Shares another small sale at advanced prices. 16 shares at 60.

The rate of exchange fell off somewhat to-day, and closed on England at 49¼. Not much done as yet.

The advices from Montevideo show increased ease in the money market. Paper money rules very abundant, and gold continues at about the same rate, 15 to 16 premium.

The sale of 8,000 dry hides in the South Plaza at 50 reales which we mentioned has attracted much notice. The hides were all from the corrales, and purely matadero; still the price is regarded exorbitant, and the last news from the United States respecting dry hides is by no means favourable.

In exchange on Rio nothing as yet done. Rate nominal.

The Flores road meeting on Sunday at the Bolsa was well attended. A new board elected. We notice, the name of Mr. David Methvin on the new board. An Executive Committee was also named, composod of the members of the previous board.

Respecting Sr. Riestra's letter to President Mitre regarding the loan, we received an extremely severe letter and felt obliged to strike out the objectionable parts. Mr. Riestra states that no merchant connected with the Plate subscribed for the loan. For his information we may state that the bankers, Messrs. Guinness & Mahon, of Dublin, who have business relations with Buenos Ayres, took on their own private account a good round sum.

Discounts to-day rather easy. Good bills at 1 and 1¼ per cent.

Our special reporter at the South Plaza notes to-day the following important sales:

1800 ar. wool, Azul	52
1500 ar. from Arroyo Grande	55
550 ar. from Vecino,	55
1100 ar. from Azul,	50
250 ar. lamb's wool,	42
3 lots,	48, 50, 51

Dry Hides—500 camp and matadero, 126, 130; 300 camp, 128; 5 small lots, 125, 127, 129.

Grease—500 ar., 32 and 33; small casks, 35 and 37.

Hay—120 tons; in camp, bales $940.

Lambs for the Market—100 very fat, $18.

WORDS OF COMFORT TO THE WEAK.

In addition to the ailments common to both sexes woman has special ailments of her own, which demand our sympathy, and should receive relief if possible. IT IS POSSIBLE. In her peculiar trials she needs strengthening and sustaining, and the functional derangements to which she is subject can only be removed by a preparation combining the properties of a tonic and regulating medicine. Alone among remedies of this nature stands BRISTOL'S SARSAPARILLA. Which vegetable perfectly innocuous, especially adapted to delicate and over-susceptible organization, it will be found invaluable in all the peculiar physical exigences of the sex. Used at the same time with the Sarsaparilla BRISTOL'S VEGETABLE PILLS will be found a powerful help in effecting a complete cure, carrying off from the system the vitiated and depraved humours set free by the Sarsaparilla, and thus enabling the organs to resume their healthy functions at the proper and natural seasons.

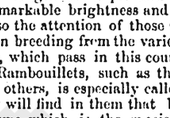
POR MARIANO BILLINGHURST—EN LA BARRACA FERIA CALLE DE SALTA ENTRE BRASIL Y CASEROS (Mercado Constitucion).
De 50 hermosos carneros padres de la pura raza Rambouillet nacidos en la cabaña del Sr. Don Manuel Benavente, Cañada de Gacto en Quilmes y decendientes de padres de la Cabaña Imperial de S. M. Napoleon III.
16 meses de edad con 10 meses de lana.
El Jueves 17 de Setiembre a las 11 en punto de la mañana se han de rematar sin falta alguna a la mas alta postura y dinero de contado los espresados 50 hermosos carneros padres de la renombrada Cabaña Benavente sin rival en la reproduccion de esta raza en nuestro pais, teniendo al efecto padres que han costado hasta cinco mil francos en la cabaña Imperial.
El resultado que han dado estos animales asecverado por los mismos compradores de años anteriores es la mas esplendida recomendacion que podemos hacer de ellos.
Desde el 12 de Setiembre estarán á la vista en la Barraca Feria para que los interesados puedan inspeccionarlos. 128,xp,a20



GREAT AUCTION SALE,
BY
BALBIN AND PLOWES,
OF
RAMBOUILLET IMPERIAL RAMS.
On MONDAY, the 24th day of August at Eleven o'Clock precisely, Messrs. BALBIN and PLOWES will Sell by Auction, without Reserve, at their Auction Rooms, No. 19 CALLE PERU, 40 Magnificent Rambouillet Imperial Rams, bred by Wilfred Latham, Esq., at his celebrated Cabaña de los Alamos. These Rams, at the day of Sale, will be 15 or 16 months' old, with a growth of wool corresponding to that age, less the lambs' points, which were shown last Spring, so that, in effect, they will have on them from 13 to 14 months' growth of wool.
The unrivalled Breed of Mr. Latham's Rambouillet Imperial possesses, as will be seen on inspection of the Rams, in the highest degree a combination of all the most desirable qualities—viz., closeness of pile, length, strength, and firmness of shape, and remarkable weight of fleece; together with a well-defined and beautiful type, neat, broad-fronted, and well-woolled heads, with well-set horns; handsome neck folds and collars; wool thickly covering the bellies and down the legs; deep, weighty, and level carcases on short legs; broad and strong over the loins,—in fact, every condition of beauty, vigour, and profitableness.
The special attention of those Gentlemen who have heretofore dedicated themselves to breeding or refining with the Negrette race is called to these Rams, which possess those qualities and characteristics that mark them as the only type in the country—the true Rambouillet Imperial—which present suitable conditions for crossing on Negrette, or fine Negrette-Mestiza Ewes. Such breeders will obtain from this stock progeny retaining trueness of type and compactness, while attaining to much greater bulk of carcase, very much greater length of staple and weight of fleece, and remarkable brightness and soundness of wool. Also the attention of those Gentlemen who have been breeding from the various French Merino races, which pass in this country under the name of Rambouillets, such as the Gilberts, Cugnots, and others, is especially called to these Rams. They will find in them that beauty and trueness of type which is the specialité of the Imperial Rambouillet, par excellence. Those Gentlemen will obtain by the use of these Rams great advantage in quality and length of wool, as well as in compactness of form and levelness.

RAM AUCTION
Mr. BENJAMIN NAZAR will Dispose of by Public Sale, at No. 23, CALLE CHACABUCO, at ELEVEN, A.M., on WEDNESDAY, 26th instant, 37 Pure Negretti Rams, and an equal number of Magnificent Rambouillet and Negretti Cross. The former are no less suited as Sires, on account of their pure blood, than for their neat type, faultless proportions, and thick heavy fleece. The latter will be found to combine the best qualifications of both races. This cross is decidedly the most useful animal, being much hardier and larger than either of the pure breeds. The wool is also greatly prized by Manufacturers and Farmers desirous of making Sheepbreeding a lucrative business, who must sooner or later bring their flocks to this level.
In 1867, the first Lot of this class were Auctioned at the Estancia, Santa Maria. Large numbers of old, experienced and intelligent Campmen attended and expressed their admiration of the half-breeds. The brilliant result of the past year more than justified them. Mr. Ernesto Oldendorf's care will not, therefore, have been spent in vain on the present Animals, which from the 13th instant to Day of Sale will be on View at 23 Calle Chacabuco. 39,xp,a7

POR BALBIN Y PLOWES—Gran remate de carneros Rambouillet—En su casa Calle del Peru No. 19.
El Lunes, 24 de Agosto, a las 11 en punto de la mañana, a la mas alta postura y dinero de contado, se remataran 40 magnificos carneros Rambouillet criados por el Sr. Lathan en su afamada Cabaña de los Alamos.
Estos carneros el dia de la venta tendran de 15 a 19 meses con la lana correspondiente a esa edad menos las puntas de lana que fueron trasquiladas en la primavera, debiendo reputarse por este la lana que actualmente tienen de 12 a 14 meses.
Esta cria sin rival de Rambouillet Imperiales del Sr. Lathan posee como se puede averiguar viendo los carneros, la continuacion mas completa de las condiciones mas requeridas, a saber: tupidez al tacto, fuerza y finura de lana, con vellon de un peso estraordinario: unido todo esto a un tipo hermoso y bien determinado, mucha lana en la cabeza, anchura de frente entre las aspas siendo estas bien formadas, rollos hermosos en el pescuezo, lana tupida en la barriga y en las patas, posellendo ademas las cualidades de ser anchos y fuertes de lomo y riñones, en fin reunen todas las condiciones de hermosura, de vida y de provecho.
Se llama la atencion especial sobre estos carneros a todas aquellas personas que hasta hoy se han dedicado a la cria o cruza de la raza Negrette, pues poseen aquellas calidades caracteristicas que les señalaban como el tipo especial en este pais [el verdadero Rambouillet Imperial] que presenta las condiciones adecuadas para la cruza con Negrette, si ovejas finas de Negretto mestizas.
Los criadores que obtengan padres de los que se van a rematar tendran con este cruze un prole que perpetuará su tipo verdadero. 154,1m,a19

POR BENJAMIN NAZAR Y Ca.—De 30 Carneros Negretti sangre pura y 57 carneros cruza de Rambouillet y Negretti puros—En la casa Calle de Chacabuco No. 23.
Por órden y cuentas del Sr. D. Ernesto Oldendorff uno de los primeros criadores de la raza ovina.
El Miercoles 26 de Agosto a las 11 en punto se rematarán a la mas alta postura y dinero de contado los magnificos carneros de la estancia Santa Maria.
37—Carneros Negretti, sangre pura, entre los buenos padres, todo lo mejor que se puede desear, por ser lindos tipos, bien desarrollados, gran cantidad de lana larga y buen caracter.
57—Carneros cruza de Negretti y Rambouillet, puros aumentadores en lana y tamaño.—El vellon que rinden estos animales es inmenso y de mucho valor por los solicitodos; que son hoy en Europa las lanas de hebra larga, para la fabricacion de paños.—El año 67 dimos un remate de carneros de la estancia de Santa Maria, y todos los criados inteligentes e imparciales que examinaron el lote de carneros, que fue vendido los apreciaron dandoles el mayor valor, como los que crian en las afamadas cabañas de Europa, y a mas tienen estos la ventaja de ser aclimatados, lo que los hace preferibles a los de otras cabañas.
La edad de los carneros padres Negretti Rambouillet es de 16 a 18 meses, y todos han sido esquilados en Setiembre del año ppdo. y dieron un brillante resultado—Los recomendamos a todos los Sres. que se dedican a criar ovejas pasen a examinar los magnificios carneros que presenta ese año el inteligente Sr. D. Enesto Oldendorff.
NOTA—El 13 de Agosto estaran en exhibicion Calle de Chacabuco No. 23, para que con tiempo puedan ser apreciados. 21,xp,a9

POR MARIANO BILLINGHURST—En la Barraca Feria Calle de Salta entre Brasil y Caseros, Mercado Constitucion.
De 18 carneros padres de la raza negretto del Sr. Joppenor denominado el 'Consul', partido de Sambrombon.
El 31 del corriente a las 11 en punto de la mañana se han de rematar sin falta alguna a la mas alta postura y dinero de contado, los 18 carneros padres de 15 meses de edad con 9 de lana, sangre pura de padre y madre Europeos importados de la Cabaña mas renombrada de Alemania como los Wollimovo etc.
Desde el 25 estarán a la vista en la Barraca Féria, donde los Sres. hacendados podrán inspeccionarlos y juzgar por si mismo del mérito que tengan apreciando su tipo, fineza y largura de lana. 172,11p,a20

THE ACME OF MEDICAL SCIENCE
IS ACHIEVED IN THE WONDERFUL
DISCOVERY OF NEW MEDICAL
PRINCIPLES IN
DR. RADWAY'S
PERFECT PURGATIVE PILLS
COATED WITH SWEET GUM.

1st Principle—A vegetable substitute for Calomel or Mercury is secured.

2d. A cathartic that cleanses the alimentary Canal and its neighboring Viscera as thoroughly as Lobelia does the stomach.

3d. Functional Harmony is secured to the secreting vessels of all the organs and glands in the system.

4th. Purification and equalization of the circulation of the blood.

5th. The properties of these Pills communicate a nutritious principle to the blood and reparative secretions.

6th. A great want is supplied in their soothing, healing and expulsive power in cases of intestinal ulceration, as in Eruptive Fevers, where a cure depends upon free evacuations.

7th. The aged and persons suffering from paralysis of the bowels, by the use of one pill per day, secures regularity.

Persons suffering with any disturbance of the secretary organs, or that have difficulty in discharging the contents of the bowels, or that are in the habit of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers, will convince you that your faith and trust in them will become firmly established.

RADWAY'S
REGULATING PILLS.

A newly discovered principle in vegetable medication is securred in Radway's Regulating Pill, that places them far in advance of all other Purgative or Cathartic, Aparient or Sedative, and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mercury known; the only Medicine that, during their process of purging, imparts nutriment to the debilitated system, and strength, vigor and purity to the blood, and impaired secretions; the only purgative that will cleanse the Alimentary Canal and obstructed intestine as quickly and thoroughly, without weakening or neauseating the patient, as Lobelia (the most active and thorough emetic of the herbist) will the stomach, and the only purgative at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelas, and other Malignant Fevers, that inflame and ulcerate the mucuous membranes of the Bowels, Stomach, &c.

THE PROPERTIES OF
DR. RADWAY'S PILLS.

They equalize the circulation, Purify the Blood, and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six hours.

AS A CATHARTIC, the increase, when suspended, the peroitaltic movement of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach, into the duodenum, stimulating the secretory, ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.

PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for general use. The common Cathartic Pills, that induce drastic liquid discharges, should never be given in cases of inflammation, or when there is ulceration of the intestinal canal.

THE APERIENT and mild LAXITIVE properties of RADWAY'S PILLS are the best safeguard in these disorders, and in all cases of eruptions and malignant fevers their balsamic, healing and sothing properties protect the coats of the alimentary passage against the irritant and acrid humors of the fauces.

THE NUTRITIOUS AND TONIC properties of these Pills are of great service in depleting fevers and uterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion.

THEIR SEDATIVE properties allay pain in the nervous system, stomach and bowels, either from inflamation, colic, flatulence, wind, cramps, &c.

THEIR COUNTER IRRITANT influence extends throughout the system where there is inflamation, congestion or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter irritations is generally applied to external remedies. Its application, internally, in the form of a purgative medicine, exemplified in Radway's Pills, has proved a wonderful curative principle, readily withdrawing from the blood and fluids their acrid and irritating humors.

AS DIAPHORETICS OR SUDORIFICS they stimulate the secretions of the skin, induce exhalation of obstructed perspiration.

THEIR DIURETIC properties act on the kidneys, correcting and regulating the flow of urine.

THEIR ANTI-BILIOUS properties stimulate the liver in the secretion of bile, and its discharge thorogh the biliary ducts. In all cases of Headache, Jaundice, Bilious Attacks, Saffrom-colored Skins, Impaired Digestion, caused by the overflow of bile and its mixing with the blood, these pills, in doses four to six, will quickly regulate the action of the liver and free the patiedt from these difficulties. One or two of Radway's Pills taken daily, by those subject to bilious pains and torpidity of the liver, will keep the system regular and insure healthy digestion.

In case where there is severe inflamation, paralysis of the bowels, and a speedy discharge of their contents required, grind six of the pills to a powder and take in some preserves or water. In half an hour the pills, given in this way, will generally operate. The dose can be repeated, if necessary, in two hours. We have known the pills, given in this form, to open the bowels ween Croton Oil. Elaterium, Podophyllum Mandrake' have failed. It is seldon that a second dose will be required in these cases of Intestinal Obstructions.

PENEDO'S VEGETABLE SYRUP,
THE GREATEST MEDICAL DISCOVERY
OF
MODERN TIMES!

HAS CURED THOUSANDS!

FAREWELL, A LONG FAREWELL, to Consumption, Affections of the Chest, Hooping-Cough, Chronic Bronchitis, and Asthma.

All sufferers from these dangerous Diseases will experience immediate relief even in the most desperate cases.

Several eminent Members of the Medical Profession, whose testimony may be relied upon with the most perfect confidence, have obtained the most satisfactory results in cases of Consumption by the use of this valuable specific—in fact,

THE SYSTEM OF THE PATIENT UNDERGOES A COMPLETE TRANSFORMATION.

Professor PENEDO feels assured that the above-mentioned discovery will always maintain a vast superiority over all other Preparations, as it is generally known that these invariably contain a large quantity of mineral matter, which is most hurtful to the human frame.

This SYRUP is prepared solely from one of those valuable vegetable productions for which the surrounding country of the Brazils is so justly famed.

The annexed Testimonial has been received, and is one of many thousands, testifying to the medicinal virtues of Penedo's Syrup:—

"Professor J. A. PENEDO,

"HONORED SIR,—In answer to your Correspondence, allow me to inform you that my Lady has used the Preparation, called "Penedo's Syrup," and by its assistance, she was in an incredibly short time completely cured of the Pulmonic Disease from which she was suffering.

"Allow me to assure you that you have my best wishes for your future success, and I shall be happy if you will make whatever use of this letter that you may think proper.

"Sincerely yours,

SAVINGS BANK.
BANK MAUA AND CO.
101--Cangallo--103.
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maua & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

THE "GLYCERINE" DIP,
FOR SHEEP AND LAMBS,
FREE FROM ARSENIC, MERCURY, MINERAL AND OTHER POISONS.
DEADLY TO ALL PARASITES INFESTING THE SKINS OF SHEEP AND OTHER ANIMALS.

THIS PREPARATION is destined to supersede the Compounds hitherto Advertised, and which have a tendency to destroy Animals, injure the Men engaged in Dipping, and weaken the Wool by their caustic and reducing properties.

The "GLYCERINE" DIP can be used with perfect safety at any Season of the Year, and has been found in practice invaluable for the following purposes:—

I.—In Curing Scab, Killing Acari, Fags, Ticks, and other Parasites which attack the Sheep.
II.—In strengthening and adding lustre to the Wool.
III.—In Washing Sheep shortly before Clipping, leaving the Fleeces in a pure state.
IV.—In Dipping Lambs, even whilst suckling ewes, as they cannot be injured by the Material.
V.—In Dipping Rams at any Time of the Year, without danger of producing the excoriations which always follow the use of other Dips, especially in the Autumn Season.
